

Career Labs Vision

Career Labs helps students find a vision for a successful career and provides connections and training to make their visions possible. We do this by building partnerships between employers, professionals and schools in communities of need to help students succeed in life

Our Program

How Your School Can Participate

Career Labs USA will bring our program into your school if you meet our core requirements. You serve a low-income community. You have auditorium space for workshops. Your leadership team will be champions for the Career Labs program in your school.

School Partner Opportunities

Career Labs Workshops

- 2-Semester workshop series teaching students about careers and career skills
 - Career workshops led by professionals in their fields
 - Career Skills workshops
 - Career Coaching days
 - Student resource binders
