

## Career Labs Vision

*Career Labs helps students find a vision for a successful career and provides connections and training to make their visions possible. We do this by building partnerships between employers, professionals and schools in communities of need to help students succeed in life*

## Our Program

## How You Can Help

*How can a student have a dream if they don't know what is possible to dream about? As a Career Expert, you will help students discover a future and hope for their lives. You will be a role model. You will be a guide for them in learning about your career field.*

## Career Expert Opportunities

### Workshop Speaker

- 2-hour workshop teaching students about your career field
  - Tell your story
  - How-To/Case Study
  - Hands-on workshop exercise

Career Labs staff will help in preparing your workshop

### After School Career Mentor

- Available to spend an hour mentoring students in an after-school Career Club
  - You choose the number of weeks and timing when you will be available

### Subject Matter Expert for Schools

- Partner with one or more teachers to be available to assist with expert advice on class lessons and/or projects
